INTRODUCTION

In 2006, Paisley Products of Canada Incorporated (est. 1949), launched their 'Protectives' division to bring a broad spectrum of cost reducing products to the construction industry. Paisley Protectives provides the best solutions for protecting commercial, residential and industrial projects from start to finish.

Paisley Protectives is your source for a full range of dependable, cost effective materials designed to preserve your investment, protect your finishes and enhance the value of your building project. By protecting floors, bathtubs, countertops, glass, trim and facades, and installing reliable moisture and sound barriers on the home or building substructure, you will increase customer satisfaction and reduce cost on warranty claims, call-backs, clean-ups and repairs.

Xmark® branded products are designed to eliminate problems associated with marking, staining, scuffs, scratches, spills, water damage, and sound penetration. All products are grouped into standard, extra and maximum protection to guide you to the solutions that best suit your protective needs.

We invite you to call **1-416-PAISLEY (724-7539)** for additional information, or visit **www.paisleypro.com** to explore our fully integrated e-commerce site and see our complete range of products for construction and remodeling.

Marlon Paisley
Vice President, Paisley Products

CONTENT

CARPET PROTECTION

Standard Protection

Designed to safeguard carpets from damage, Xmark® Carpet Protection helps eliminate downtime resulting from messy spills and stains. The self-adhesive sheets provide an instant protective barrier between the mess of the job site and the carpet below. The adhesive film then easily peels back when the job is completed. This gives you more flexibility to install floors when it is convenient, while providing necessary protection to allow contractors to continue their work.

Features and Benefits

- Use instead of drop sheets and simply dispose of when finished
- Perfect for high- and low-traffic areas
- Reverse-wound with adhesive on outside for easy roll down
- Virtually maintenance-free
- No need to have carpets cleaned when the job is done

PRODUCT ID	DESCRIPTION	COVERAGE	WEIGHT
PSWSXMCP-242	24" x 200' RW, Clear	400 ft^2	8 lbs.
PSWSXMCP-245	24" x 500' RW, Clear	1,000 ft^2	17 lbs.
PSWSXMCP-24A	24" x 1,000' RW, Clear	2,000 ft^2	33 lbs.
PSWSXMCP-362	36" x 200' RW, Clear	600 ft^2	12 lbs.
PSWSXMCP-365	36" x 500' RW, Clear	1,500 ft^2	25 lbs.
PSWSXMCP-36A	36" x 1,000' RW, Clear	3,000 ft^2	48 lbs.
PSWSXMCP-485	48" x 500' RW, Clear	2,000 ft^2	34 lbs.
PSWSXMCP-322	32" x 200' RW, Clear	533 ft^2	11 lbs.

Note: Not recommended for hardwood applications.
Custom widths available through our on-site converting facility.
For large area applications, apply with Xmark® Carpet Tape Dispensers.
Reverse wound, 0.003" thickness.

STATIC SHEETING

Standard Protection

Xmark® Static Sheeting is a new multi-layer high-density polyethylene film specially designed for covering walls and countertops during painting, construction, and home improvement projects.

Xmark® Static Sheeting clings to virtually any surface with minimal or no taping required. The outer surface retains dust 31/2 times better than most plastic drop cloths. Dust, paint, sawdust and other airborne particles cling to the Xmark® Static Sheeting minimizing the levels of debris left on the site during repositioning or clean up. The result is less clean up time, lower costs and higher profits.

PRODUCT ID	DESCRIPTION	COVERAGE	WEIGHT
PSPLXMSS-10	10' x 400', Clear	4,000 ft^2	8 lbs.

0.0004" thickness.

Features and Benefits

- Uses static to secure tough film instead of adhesives
- Debris clings to product surface
- Easily trimmed to fit any size area
- Reusable

HARD SURFACE PROTECTION

Standard Protection

Xmark® Hard Surface Protection is specially formulated to protect factory finished hardwood floors, vinyl tile, linoleum, ceramic tile, cultured marble, counter tops, bathtubs and other hard surfaces. It also protects grout from staining or damage and protects your surfaces from scratches and scuffs. The adhesive film is strong enough to resist tears and punctures. This product is blue-tinted for easy identification. With a low- tack adhesive back, Xmark® Hard Surface Protection stays in place but peels off easily when the job is done without leaving any messy residue behind.

Features and Benefits

- Tough and cost effective
- Perfect for high- and low- traffic areas
- Less labour and rework than using kraft paper and duct tape
- Protects most hard, non-porous surfaces and flooring
- Self-adhesive and easily lifts up without residue
- Ideal for protecting tub and shower walls against nicks, scratches and stains

PAPERBOARD

Standard Protection

Xmark® Paperboard is a cost-effective way to protect hardwood, tile and cement floors from scratches, waste and impact damage during home building, renovation or moving. It features a thick layer of paper that absorbs water and solvents, and a plastic laminate backing that prevents liquids from penetrating through to the floor.

Features and Benefits

- Protects finished floors from liquid and impact damage
- Extra thick and absorbent layer of paper
- Plastic undercoating stops water and solvents from penetrating through to finished floor
- 100% recyclable
- Far superior to kraft and red rosin paper

PRODUCT ID	DESCRIPTION	COVERAGE	WEIGHT
PSCIXFA	36" x 100' RW, Brown	300 ft^2	20 lbs.

Reverse wound, 0.015" thickness.

BREATHABLE BASIC FLOORLINER

Standard Protection

Xmark® Breathable Basic Floorliner is an extremely durable synthetic fiber with anti slip coating and water proof layer. This product is the perfect protection layer against scuff and scratches. Easy to apply and remove. Versatile - Commonly used for floors, tiles, counter top, stairs, shower bases and many more surfaces.

Features and Benefits

- Protects LVT, Tile, Countertops, Stairs and other surfaces
- Anti-skid
- Waterproof
- Reusable

PRODUCT ID	DESCRIPTION	COVERAGE	WEIGHT
PSAFXMBBF	40" X 168', White	560 ft ^{2}	15lbs.

0.020" thickness.

BREATHE - ALL PROTECTION

Extra Protection

This innovative slip-resistant surface protection is designed to be used as a temporary floor cover for various types of site finished stairs, hardwood, carpet and ceramic tile without the need to tape it down. Xmark® Breathe-All Protection features a slightly tacky nonwoven padding to prevent impact damage, and a breathable plastic top layer that is water-resistant. It can be used several times before needing to be replaced.

Features and Benefits

- Suitable for most surfaces
- Blue plastic topcoat protects against water and solvents penetrating through to finished floor
- Residual moisture from floor can escape through breathable membrane
- Can be repositioned and re-used multiple times
- Does not need to be taped down

PRODUCT ID	DESCRIPTION	COVERAGE	WEIGHT
PSAFXMBF	39" x 164' RW, Blue	538 ft ^{2}	19lbs.

Reverse wound, 0.050" thickness.

CONSTRUCTION BOARD

Extra Protection

Xmark® Construction Board is a heavy-duty alternative to Masonite® sheets for protection. This high density, non-corrugated board comes in a roll and is extra thick and water resistant. Contractors and installers can use Xmark® Construction Board to temporarily protect hardwood flooring, colored concrete, tile, stone, linoleum and other surfaces. Xmark® Construction Board is the perfect solution when you need both impact protection and breathability.

Features and Benefits

- Rolls out and lays flat
- Protects finished floors from impact damage
- 100% recyclable
- Will not crush if driven on
- Contributes toward LEED credits

PRODUCT ID	DESCRIPTION	COVERAGE	WEIGHT
PSSPXMCB	38" x 100', Brown	317 ft ^{2}	50lbs.

0.050" thickness.

STAIR COVER

Maximum Protection

The waterproof Xmark® Stair Cover offers reliable protection for wooden stairs with a thick, highly durable PVC extrusion designed to prevent scuffs, scrapes and marks. Fastens quickly and securely to standard stairs of .75" to 1.25" thick and 9.5" and larger in width without the need for adhesives or tapes. A ledged grip provides added traction. Easy to install and remove.

Features and Benefits

- Protects stairs from scuffs and water damage
- Easy to install and remove
- Fastens without adhesives or tapes
- Reusable

HONEYCOMB PROTECTION - BLACK

Maximum Protection

Xmark® honeycomb protection panel features a 5-mm thick high-density sheet engineered to provide the highest level of protection for delicate surfaces. Crafted for durability while retaining a lightweight profile, this panel is further enhanced by a fleece backing that act as a reliable shield against scratches and scuffs.

The honeycomb pattern further increases the product's slip resistance. This versatile protection solution not only demonstrates remarkable impact resistance but also showcases waterproof properties, making it well-suited for various environments.

Features and Benefits

- Protect vulnerable surfaces in high traffic areas
- Fleece as additional protection layer to protect from scratches and scuffs
- Easy to install and remove
- Reusable
- Versatile, suitable for various applications

PRODUCT ID	DESCRIPTION	COVERAGE	WEIGHT
PSSRXHCE5	48" X 87", Black	29 ft ^{2}	10 lbs.

0.20" thickness.

DOOR PROTECTOR BLUE

Extra Protection

Xmark® Door Protector Blue—a robust and High Density 4mm thick plastic sheet designed to provide optimal protection for doors against potential impacts, scratches and damages often encountered on jobsites.

This item is designed for reusability and can be conveniently folded for minimal spacing storage. When the time comes to shield your door, the process is simple and straightforward: just unfold the door protector on both sides of the door and strap it firmly in place with the velcro straps.

Features and Benefits

• Shields doors from scratches, dents, and other forms of damage
• Quick and easy setup with the Velcro strap, no tools or hardware required
• Reduces the need for costly door repairs or replacements

PRODUCT ID	DESCRIPTION	COVERAGE	WEIGHT
PSSRXDPL	37" X 83", Blue	21.33 ft²	5.5 lbs.

FOAM TAPE

Extra Protection

Xmark® Foam Tape is a reusable, high level of moisture resistant, self-adhesive foam that provides surface protection. The cutting-edge technology provides cushioning for increased protection against damage that can often occur throughout the construction site. The sticky residue free foam allows contractors to roll the foam tape on the surface in a one-step process that saves valuable time and eliminates the need to tape seams.

Features and Benefits

- Moisture resistant, conformable and self-adhesive
- Crush resistant foam withstands weight
- Can be reapplied multiple times
- Easily trimmed to fit any size area
- Removes without residue

ELIPSE - P3 RESPIRATOR

Standard Protection

The Elipse mask series, marks a significant advancement in respiratory safety. These masks are remarkably lightweight within their category, thanks to its ergonomic design. Utilizing hypoallergenic materials, these low-profile masks come with replaceable filters boasting an impressive minimum particle protection efficiency of over 99.97% for 0.3-micron particles and 99.98% for 0.04-micron particles, earning the highest safety classification for a particulate filter.

The Elipse masks are a versatile solution suitable for everyday applications, from DIY and commercial construction to more demanding environments like metalworking, welding, and stonemasonry. Its filters deliver maximum protection against a wide array of dust particles, and replacement filters are readily available when needed.

Features and Benefits
• NIOSH Approved TC-84A-6949.
• Soft, light and resistant.

WINDOW PROTECTION

Standard Protection

For interior or exterior use, Xmark® Window Protection is an easy-to-apply, self-adhesive polyethylene film for protecting glass surfaces. The low-tack film adheres to glass, plastics, metal and aluminium without damage. Available in two grades, it is perfect for exterior building and interior remodelling where mortar, stucco and overspray can cause scratching and etching.

Features and Benefits

- Durable polyethylene film
- Self-adhesive and easy-to-apply
- Low-tack design will not damage windows and casings
- Available in two grades for short- or long-term protection

HOUSEWRAP

Standard Protection

Xmark® housewrap replaces both micro-perforated and micro-porous housewrap technologies. Its unperforated, non-woven polypropylene film has no holes, pores or micro-pores and has a breathable coating on one side that blocks the transmission of moisture from outside to inside the house.

Compared with asphalt saturated kraft or felt, Xmark® Housewrap has a higher resistance to tearing and breaking. It is dispensed in large sheets with fewer lap joints and is durable after long-term water, heat, UV and wind exposure. Compared with many micro- perforated and microporous housewrap technologies, Xmark® Housewrap exhibits desirable MVTR results, shows good hydrostatic resistance, holds up as an excellent air barrier, is insensitive to surfactants, and serves as an intrinsic viral/bacterial/odour barrier. This product is approved for sale in both the U.S. and Canada (including Ontario) and complies with ICC-ES, CCMS and BMEC standards.

Features and Benefits

- Balanced moisture vapour transmission
- Provides excellent resistance to liquid, air and vapour passage
- Insensitive to surfactants
- Intrinsic viral/bacterial/odour barrier

3M® 8979 PERFORMANCE PLUS DUCT TAPE

Maximum Protection

3M® 8979 Performance Plus Duct Tape sticks securely on contact and removes cleanly from most opaque surfaces in up to six months indoors and outdoors. This high-tech product resists UV, sunlight and weather to stay on for up to one year without deterioration. The special adhesive on the 3M® Duct Tape adheres immediately and reliably long term to most surfaces. This product protects against light abrasion including overspray from bead blasting, sand blasting and shot preening. Use this 3M® tape for holding, joining, sandblast overspray protection, bundling, pipe wrapping, reinforcing, patching, metal protection, sealing, hanging poly, masking, labelling, temporary conduit, moisture proofing capping and marking.

Features and Benefits

- Stays on for up to one year without deterioration, even outdoors
- Saves time of removing sticky residue
- Strong waterproof backing resists wear, abrasion, moisture and weathering
- Aggressive adhesive for quick and reliable attachment

SOUDALSEAL HYBRID ALL PURPOSE

Standard Protection
Soudaseal AP is a high quality, neutral, elastic, 1-component joint sealant based on MSPolymer.

Features and Benefits
- New generation sealant / adhesive
- Paintable (no need to wait until full cure before painting)
- No solvents / isocyanates (no shrinkage)
- AAMA approved

PRODUCT ID	DESCRIPTION
AVSCHSAP-L	300ml Cartridge, Limestone
AVSCHSAP-OW	300ml Cartridge, Off-White
AVSCHSAP-T	300ml Cartridge, Tan
AVSCHSAP-W	300ml Cartridge, White

Applications: Windows & doors, roofing & siding, concrete & masonry, and general construction

SOUDALSEAL HYBRID

Standard Protection
Soudalseal Hybrid is a high quality, neutral, elastic, 1-component adhesive sealant based on MSPolymer with a very high initial tack.

Features and Benefits
- Excellent weather resistance in all climates
- Movement capability up to +/-25%
- Good extrudability even at low temperatures
- Immediate high grab strength

PRODUCT ID	DESCRIPTION
AVSCHSTR	300ml Cartridge, White

Applications: Mirror installations, building & construction, metal working industry, structural construction, and trailer & vehicle assembly

SOUDACRYL LATEX ADHESIVE PAINT

Standard Protection
Soudacryl PAINT is a high quality paintable acrylic latex designed for both interior and exterior use.

Features and Benefits
- Paintable
- Handles up to 5 freeze-thaw cycles
- Easy clean-up with water
- Low odor
- VOC compliant

PRODUCT ID	DESCRIPTION
AVSCLAP-30W	300ml Cartridge, White

Applications: Low movement joints, trims, wall cracks, and baseboards

SOUDAFOAM PU FOAM ALL SEASON

Standard Protection

Soudafoam All Season is a top of the line, minimal expansion, one component, moisture curing PU foam for use in extreme climates.

Features and Benefits

- Gunable in all seasons (-25°C to 49°C) with a can temperature of 4°C to 35°C
- Excellent adhesion to almost all substratess
- Excellent thermal and acoustical insulation
- Extreme weather formulation

PRODUCT ID	DESCRIPTION
AVSCPFAS-60	600ml Gun, Champagne
AVSCPFAS-60G	600ml Genius Gun, Champagne
AVSCPFAS-75	750ml Gun, Champagne

Applications: Window & door installs, insulating wall panels, electrical outlets and pipes & vents

SOUDAFOAM PU FOAM DOOR & WINDOW

Standard Protection

Soudafoam Door & Window is a minimal expansion, one component, moisture curing PU foam.

Features and Benefits

- Excellent adhesion to almost all substrates
- Excellent thermal and acoustical insulation

PRODUCT ID	DESCRIPTION
AVSCPFDW-60G	600ml Genius Gun, Champagne
AVSCPFDW-75	750ml Gun, Champagne

Applications: Window & door installs, insulating wall panels, electrical outlets and pipes & vents

SOUDAFOAM PU FOAM GAP FILL

Standard Protection

Soudafoam Gap Fill is a gap filling, high expansion, one component, moisture curing PU foam.

Features and Benefits

- High expansion
- Excellent adhesion to almost all substrates
- Excellent thermal and acoustical insulation

PRODUCT ID	DESCRIPTION
AVSCPFGF-30	300ml with Straw, Champagne
AVSCPFGF-60G	600ml Genius Gun, Champagne

Applications: Filling of cavities, sealing of large openinings & gasps, installation of HV/AC units, and pest controls

SOUDAFOAM PU FOAM - SOUDABOND EASY

Standard Protection

Soudabond Easy is a ready-to-use, single component, self-expanding polyurethane adhesive for clean, efficient and economical permanent bonding of insulation panels and plasterboard in building and construction.

Features and Benefits

- Time & money saving
- Excellent adhesion to almost all substrates
- Fast cure

PRODUCT ID	DESCRIPTION
AVSCPFSE	750ml Gun, Orange

Applications: Bonding of foam boards, drywall adhesive, insulating roof panels, and gluing decorative elements

PU ADHESIVE & SEALANT PUROCOL EXPRESS

Standard Protection

Soudal Purocol Express Is a PU based construction adhesive with ultra high strength and rapid curing for transparent and water resistant (D4 to EN 204) bonding. Suitable for extreme duty wood bonding and other common building materials.

Features and Benefits

- Gun applied polyurethane adhesive
- Filling characteristics for bonding onto uneven surfaces

PRODUCT ID	DESCRIPTION
AVSCPUPE	310ml Cartridge, Semi Transparent White

Applications: All type of construction materials, wooden construction elements, insulation material (including polystyrene), both interior and external usage, and can be exposed to high relative humidity

SOUDASIL SILICONE HT1

Standard Protection

Soudasil HT1 is a one-part acetoxy silicone sealant that withstands very high temperatures.

Features and Benefits

- Permanently flexible
- Red coloured silicone
- UV resistant
- Resists temperatures up to 260°C

PRODUCT ID	DESCRIPTION
AVSCSHT1	300ml Cartridge, Red

Applications: HVAC/R, heating elements, duct work, and vents & pipes

SOUDASIL SILICONE RTV3

Standard Protection

Soudasil RTV3 is a high-quality, neutral, elastic one-component acetoxy silicone based joint sealant. NSF51.

Features and Benefits

- Excellent adhesion to glass, ceramic, porcelain, metals, wood & many more
- Mildew resistant
- UV resistant

PRODUCT ID	DESCRIPTION
AVSCSRTV3	300ml Cartridge, Clear

Applications: For sealing of joints in sanitary and other moist rooms between e.g. showers, bathtubs and (tiled) walls, between walls and washbasins, between floors and toilets.

SOUDASIL SILICONE SILIRUB 2

Standard Protection

Silirub 2 is a premium quality low modulus neutral cure 100% silicone sealant.

Features and Benefits

- Resistant to UV, rain, snow, ozone & many chemicals
- Excellent adhesion to glass, plastics, masonry substrates, metals, and wood
- Thick formulation, excellent toolability
- 100% silicone
- High & low temperature resistance

PRODUCT ID	DESCRIPTION
AVSCSSIL-30K	300ml Cartridge, Black
AVSCSSIL-30B	300ml Cartridge, Brilliant White
AVSCSSIL-30W	300ml Cartridge, White
AVSCSSIL-60K	600ml Sausage, Black
AVSCSSIL-60C	600ml Sausage, Clear

Applications: All usual building joints with high movement. Glazing and joint works.

SOUDASIL SILICONE MULTIPURPOSE

Standard Protection

Soudasil MULTI is a general purpose, mildew resistant 100% multi-purpose RTV silicone.

Features and Benefits

- Permanently flexible
- Watertight & airtight
- Excellent adhesion to glass, ceramic, porcelain, metals, wood & many more

PRODUCT ID	DESCRIPTION
AVSCSSM	300ml Cartridge, Clear

Applications: Kitchen & bathroom, transport & industry, building & construction, and sealing of glass to glass

CARPET TAPE DISPENSER

The Carpet Tape Dispenser installs Xmark® Carpet Protection Tape in large areas quickly and easily. For high-volume commercial applications, this dispenser will save you time and energy.

PRODUCT ID	DESCRIPTION	WEIGHT
PSPPXMCP-24	24″ Carpet Tape Dispenser	22 lbs.
PSPPXMCP-36	36″ Carpet Tape Dispenser	29 lbs.
PSPPXMCP-48	48″ Carpet Tape Dispenser	48 lbs.

WINDOW TAPE DISPENSER

The dispenser fits around your waist and keeps your hands free. This dispenser provides for easy application of Xmark® Window Protection.

PRODUCT USE

All statements, technical information and recommendations contained in this document are based upon tests or experience that Paisley Products of Canada Incorporated (PPCI) believes are reliable. However, many factors beyond PPCI's control can affect the use and performance of a product in a particular application, including the conditions under which the product is used and the time and environmental conditions in which the product is expected to perform. Since these factors are uniquely within the user's knowledge and control, it is essential that the user evaluate the product to determine whether it is fit for a particular purpose and suitable for the user's method of application.

SHIPPING INFORMATION

Products shipped UPS, FedEx, Purolator and Common Carrier UPS Ground/Purolator – Lowest Cost. Delivery in 1-6 business days on stock items. Ask your customer service representative for an estimate on shipping cost and time to your location. Next Business Day – Available UPS, Purolator, FedEx.
Second Business Day – Available UPS, Purolator, FedEx.

WARRANTY & LIMITED REMEDY

Unless stated otherwise in Paisley Products of Canada Incorporated's (PPCI) literature, packaging inserts or product packaging for individual products, PPCI warrants that each product meets the applicable specifications at the time PPCI ships the product. Individual products may have additional or different warranties as stated on product literature, package inserts or product packages. PAISLEY PRODUCTS OF CANADA INCORPORATED (PPCI) MAKES NO OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR ANY IMPLIED WARRANTY ARISING OUT OF A COURSE OF DEALING, CUSTOM OR USAGE OF TRADE. User is responsible for determining whether PPCI products are fit for a particular purpose and suitable for user's application. If the PPCI product is defective within the warranty period, your exclusive remedy and PPCI's and seller's sole obligation will be at PPCI's option, to replace the product or refund the purchase price.

LIMITATION OF LIABILITY

Except where prohibited by law, Paisley Products of Canada Incorporated (PPCI) will not be liable for any loss or damage arising from the PPCI product, whether direct, indirect, special, incidental or consequential, regardless of the legal theory asserted, including warranty, contract, negligence or strict liability.

TRACKING SHIPMENTS

Shipments can be tracked online by Purolator or U.P.S.
